# ChatGPT Response

Welcome to ChatGPT! Below is an example of a response with Markdown and LaTeX code.

## Markdown Example

You can use Markdown to format text easily. Here are some examples:

1. Bold Text: This text is bold
2. Italic Text: This text is italicized
3. Link
4. Lists:Item 1
    Item 2
    Item 3

## bold example

Here is a bold example: **This text is bold**.

## Italic Example

Here is an italic example: *This text is italicized*.

## Image Example

## Conclusion

Markdown and LaTeX can be powerful tools for formatting text and mathematical expressions in your Flutter app.
